Dear Parent/Guardian,

### **Screening Requirement**

Please know that the screening for the students will be conducted in accordance with state guidelines. The school nurse will notify the parent/guardian of all results. Any conditions discovered that might impede the student's health or school progress will be brought to the attention of the parent/guardian by the school nurse.

A child's screening and assessment data cannot be used to determine eligibility to enter kindergarten. The only criterion for entrance into kindergarten is age eligibility. **By November 1 of the school year in which a child is enrolled for the first time, the child must be screened for vision, hearing, speech, communication, medical problems and any developmental disorders.** If the screening reveals the possibility of potential learning needs, the district must provide further assessment. Schools must note that screenings are not intended to diagnose educational disability or to be used for placement procedures. Screening results are helpful for identifying areas of individual development that require further assessment for educational programming, particularly for students who might benefit from early intervention, prevention, acceleration and /or enrichment programs. A parent may sign a statement that they do not wish to have their child screened.

If you have any questions, please call us at 513-437-0996.

Welcome to the 2025-26 School Year!

Laura Allison

Principal, Fairfield Preparatory Academy
